#### **Presentation Outline**

- Pollution Prevention (P2) Background
- 402<sup>nd</sup> Maintenance Wing Operations
- P2 Painting System Success Stories
  - Air-Assisted Airless Paint Delivery System
  - Plural Component Paint Dispensing System
- P2 Aircraft Surface Pretreatment Success Story
  - PreKote Surface Pretreatment Alternative
- Summary

- P2 is reducing or eliminating waste at the source
  - Modifying production processes
  - Promoting the use of non-toxic or less-toxic substances
  - Implementing conservation techniques
  - Re-using materials rather than putting them into the waste stream
- P2 culture at WRALC/402 MXW
- 85 percent of hazardous materials used in Air Force related to program depot maintenance (PDM) of weapons system

P2 Background

Implementation

Results and Optimization

2009 Results

#### Geosyntec<sup>D</sup> consultants

### **402 Maintenance Wing Operations**

**Provides PDM** support for major weapon systems

P2 Background

Repair, modification, reclamation, and rework of over 200 aircraft annually

**Depainting** 

Surface preparation

**Painting** 

Implementation

Results and **Optimization** 

2009 Results

Air-Assisted Airless AA) Paint Delivery System

Plural Component Paint Dispensing System (PCPDS)

Aircraft Surface Pretreatment

#### Recent P2 Success Stories

- Recent weapon systems P2 success stories
  - Air-Assisted Airless (AAA)
     Paint Delivery System
    - C-130 (Building 89)
    - C-5/C-17 (Buildings 54/59)
  - Plural Component Paint Dispensing System (PCPDS)
    - C-5/C-17 (Building 59)
  - PreKote Surface Pretreatment Alternative
    - C-130 (Buildings 50/89)

#### Geosyntec consultants

P2 Background

Air-Assisted Airless AA) Paint Delivery System

Plural Component Paint Dispensing System (PCPDS)

Aircraft Surface Pretreatment

# P2 SUCCESS STORY: Previous C-130 Painting Process

- High Volume, Low Pressure (HVLP) spray guns
- 95 one-gallon paint kits per C-130 aircraft (190 containers per A/C)
- Mixing paint cans with shakers
- Dedicated pressure pots
- Pressurized pots difficult to refill
- 190 empty containers per aircraft (hazardous waste disposal)

**One Gallon Paint Kits** 

**HVLP Paint Delivery Units** 

ir-Assisted Airless AA) Paint Delivery System

Plural Component Paint Dispensing System (PCPDS)

Aircraft Surface Pretreatment

# P2 SUCCESS STORY: AAA Paint Delivery System

- AAA P2 evaluation and implementation process
  - Identify process with potential for improvement vs. HVLP
  - Establish baseline cost and impact data for current process
  - Identify and evaluate alternative technologies
    - AAA
    - Electrostatic Paint Gun (EPG)
  - Benchmark alternative technologies
    - Visited commercial/DoD Sites
      - Honda
      - Gulf Stream
      - PEMCO
      - Fourdel
      - Lockheed Martin
    - Equipment vendor demonstration

AAA Spray Gun System at Lockheed

# P2 SUCCESS STORY: AAA Paint Delivery System

AAA P2 evaluation and implementation process (cont'd...)

- Select alternative technology (AAA paint delivery system)
- Demonstration/Validation (Dem/Val)
  - Engineered and integrated equipment
  - Provided training for shop painters
  - Primed and painted five C-130 aircraft
- Evaluated & presented results
- Received Approval
- Turned equipment over to
   C-130 paint facilities

C-130 Primer Application Utilizing AAA Paint Delivery System

P2 Background

ir-Assisted Airless AA) Paint Delivery System

Plural Component Paint Dispensing System (PCPDS)

### Geosyntec consultants

#### P2 Background

ir-Assisted Airless AA) Paint Delivery System

Plural Component Paint Dispensing System (PCPDS)

Aircraft Surface Pretreatment

# P2 Success Story: AAA Paint Delivery System

- New C-130 Aircraft Painting Process
  - 66 one-gallon paint kits for each
     C-130
  - Still requires mixing paint cans with shakers
  - 2-, 4-, 6-gun mobile paint delivery systems with single large capacity paint reservoir (unpressurized)
  - AAA paint guns on mobile unit
  - Reduced number of empty containers (132 cans versus 190 cans)

4-Gun AAA Mobile Unit

6-Gun AAA Mobile Unit

## P2 Success Story: AAA Paint Delivery

 AAA paint delivery system cost savings

P2 Background

ir-Assisted Airles

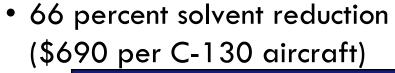

AA) Paint Delivery

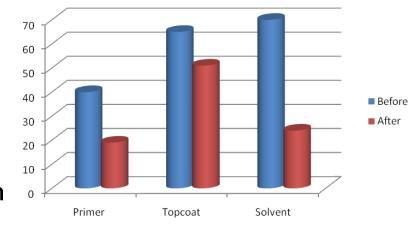

System

#### Reduces use of materials

• 53 percent primer reduction (\$2,100 per C-130 aircraft)

 24 percent topcoat reduction (\$1,700 per C-130 aircraft)

Plural Component Paint Dispensing

> Total material cost savings of \$220,000 per year based on annual average throughput of fifty C-130 aircraft

# P2 Success Story: AAA Paint Delivery System

- ENVIRONMENT, SENERGY & SUSTAINABILITY SYMPOSIUM & EXHIBITION
  - AAA paint delivery system other tangible benefits
- P2 Background
  - Increases paint transfer efficiency
  - Reduces air emissions
- ir-Assisted Airless AA) Paint Delivery System
- Produces higher-quality finish
- Enhances labor productivity and ergonomics
- Plural Component Paint Dispensing System (PCPDS)
- Reduces
  - Overspray
  - Cleanup time
  - Waste

**AAA Improved Transfer Efficiency** 

## P2 Success Story: AAA Paint Delivery System

- EPG paint spray technology
- Mixing 380 one-gallon paint kits (760 containers per C-5 aircraft)
- Catalyst and base are premixed,

  AA) Paint Delivery System must be used or discarded
- Twelve EPG paint systems & dedicated pressure pots

  Plural Component Paint Dispensing System (PCPDS)
  - Significant empty container management

**One-Gallon Paint Can Shaker** 

**One-Gallon Paint Kits** 

### P2 Success Story: PCPDS

#### PCPDS P2 evaluation and implementation process

- Empty container management evaluation
  - Identified excessive hazardous waste generation

P2 Background

- Identified and evaluated bulk mixing options
- Designed new paint dispensing system utilizing plural component

technology

Built prototype PCPDS for Proof-of-Concept

- Engineered permanent full-scale PCPDS
- Developed Implementation Plan
- Next Steps
  - Training for paint shop personnel
  - Dem/Val at C-5 Paint Shop
  - Evaluate/Present Results
  - Receive Approval
  - Turn over equipment to C-5 Paint Shop

Air-Assisted Airless AA) Paint Delivery System

Plural Component Paint Dispensing System (PCPDS)

#### P2 Success Story: PCPDS

#### New C-5 aircraft painting process

- Combination of PCPDS and AAA painting technology
- Catalyst and base supplied in 55-gallon drums
- Catalyst and base remain segregated in 80- and 250gallon storage vessels until used
- Mixing of components is automated
- Components delivered to two 6-gun
   AAA delivery systems
- AAA units mobilized to aircraft paint bay

Air-Assisted Airless AA) Paint Delivery System

Plural Component
Paint Dispensing
System (PCPDS)

### Geosyntec consultants

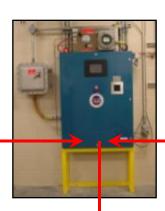

#### P2 Success Story: PCPDS

**Primer Dispensing System** 

PCPDS
Batcher/Controller

**Paint Dispensing System** 

Air-Assisted Airless AA) Paint Delivery System

P2 Background

Plural Component Paint Dispensing System (PCPDS)

**AAA Paint Delivery System** 

#### Geosyntec • consultants

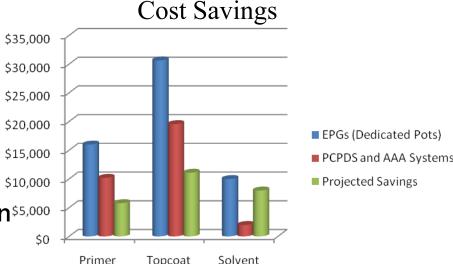

### P2 Success Story: PCPDS

PCPDS projected cost savings for C-5

P2 Background

Reduces use of materials

Solvent

Topcoat

Air-Assisted Airless AA) Paint Delivery System

- 36 percent primer reduction<sup>\$5,000</sup> (\$5,800 per C-5 aircraft)
- 36 percent topcoat reduction (\$11,096 per C-5 aircraft)

Plural Component Paint Dispensing System (PCPD

80 percent solvent reduction (\$8,000 per C-5 aircraft)

Aircraft Surface Pretreatment

Total material cost savings estimated at over \$600,000 per year based on annual average throughput of 25 C-130 aircraft

#### P2 Success Story: PCPDS

#### PCPDS other tangible benefits

P2 Background

- Enhances labor productivity and ergonomics
- Eliminates handling and mixing of numerous small containers
- Mixes and provides paint and primer materials on-demand

Air-Assisted Airless AA) Paint Delivery System

- Superior quality paint finish
- Reduces cleanup time
- Reduces hazardous waste
  - Less paint waste
  - Less solvent waste
  - Fewer empty containers
  - Empty containers recycled by vendor

**Paint Quality – Thickness Confirmation** 

Plural Component Paint Dispensing System (PCPDS)

# P2 Success Story: Previous C-130 Aircraft Surface Pretreatment Process (WEAC<sup>3</sup>)

#### Wash

- Initial Rinsedown
- P2 Background
- Alkaline Soap Application
- Acid Etch
- Air-Assisted Airless AA) Paint Delivery System

Plural Component Paint Dispensing System (PCPDS)

- Phosphoric Acid EtchApplication
- Chromate ConversionCoating Application
- Final Rinse

**Chromate Conversion Coating Application** 

#### PreKote Aircraft Surface Pretreatment

- PreKote P2 evaluation and implementation process
- Researched other Air Force and commercial facility
   P2 Background
  - Identified PreKote as potential alternative to WAEC<sup>3</sup>
    - Dem/Val PreKote process at C-130 paint shop
      - Partnered with Corrosion Control Office and C-130 paint shop
      - Developed Implementation Plan
      - Provided personnel application and safety training
      - Pretreated three C-130 aircraft
- Successful Dem/Val leading to implementation of PreKote

  Aircraft Surface Pretreatment process at C-5 and C-17 paint shops

Air-Assisted Airless AA) Paint Delivery System

Plural Component Paint Dispensing System (PCPDS)

#### PreKote Aircraft Surface Pretreatment

 New C-130 aircraft surface pretreatment process

P2 Background

PreKote application (two-step process)

Air-Assisted Airless AA) Paint Delivery System Final rinse

 Chromate conversion coating eliminated from process

**Final Rinse Process** 

Aircraft Surface

**Paint Dispensing** 

#### PreKote Aircraft Surface Pretreatment

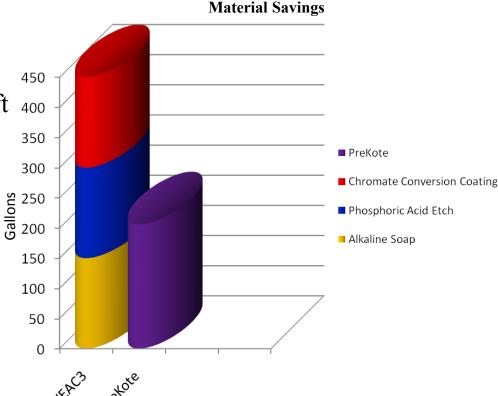

### PreKote surface pretreatment cost

P2 Background

savings

• \$12,000 per C-130 aircraft

Air-Assisted Airless AA) Paint Delivery System \$600,000 annual savings based on fifty C-130 aircraft per year

Plural Component Paint Dispensing System (PCPDS)

Aircraft Surface Pretreatment

#### PreKote Aircraft Surface Pretreatment

- PreKote surface pretreatment other tangible benefits
  - Streamlined process and improved production
  - Better paint adhesion to aircraft surface
  - Reduced surface corrosion
  - Reduced worker exposure
  - Reduced personal protective equipment (PPE) requirements
  - Reduced environmental impacts

Air-Assisted Airless AA) Paint Delivery System

Plural Component Paint Dispensing System (PCPDS)

Aircraft Surface Pretreatment

#### P2 culture at Robins AFB

- Always looking for a better way
- 2007 recipient of General Thomas D. White DoD P2 Award
- Painting system P2 initiative success stories
  - AAA Paint Delivery System
    - Annual projected savings for C-130, C-5, C-17, F-15 in excess of \$800K
  - PCPDS
    - Annual projected savings in excess of \$650K
  - PreKote Surface Pretreatment Alternative
    - Annual projected savings for C-130 and C-5 in excess of \$1.65M

 Total annual projected savings for these P2 initiatives in excess of \$3M
